

THE DATA LINE

What may go into which tool

A written rule short enough that people follow it. The suggested starting point is in each cell. Change it to fit your firm, then write down who owns it.

MATERIAL	PUBLIC CHATBOT, PERSONAL OR FREE ACCOUNT	FIRM-LICENSED AI TOOL	TOOL BUILT ON YOUR OWN ACCOUNTS
Published material: articles, released statements	Yes	Yes	Yes
Your own drafts and internal notes	Avoid	Yes	Yes
Client material not yet public: embargoed announcements, results	No	Only with a named person's sign-off	Yes, if built so it can't reach a public model
Personal data: names and contact details of journalists, executives, clients' staff	No	Only what the task needs	Only what the task needs
Client financials, deal terms, anything under NDA	No	No	Only with the client's written agreement

WHO OWNS THIS RULE

REVIEWED

WHERE IT IS WRITTEN DOWN

Why write it down. Singapore's PDPC issued advisory guidelines on personal data in generative AI on 20 July 2026. They say organisations that use these systems under their authority bear primary responsibility for what goes into them, and encourage clear written policies. The guidelines are advisory. The PDPA they interpret is law. This template is not legal advice and is not a compliance certification.
